

# FAQ

Q: Where is the starting point?

A: The only set location is the starting point, the Civic Center Library. Once you have completed your work there, the remaining locations will be unlocked for you and you can visit them in your desired order.

Q: Can I pause the game?

A: No. You can choose to pause the game at any time. When you are ready to continue, simply open the app and tap on "Saved Games". Tap on the game you wish to continue, and then tap on "Resume" at the bottom of the screen.

Q: Can I download the app using cellular data?

A: No. The app can be downloaded using cellular data while away from Wifi. It takes a little longer than if Wifi is used but it certainly can be done.

Q: Does the app require GPS?

A: Yes, but only if the tablet has GPS capabilities. Kindle Fire models (ones without cellular network capability) do not have a built-in GPS. Kindle Fire HD models (ones with cellular network capability) do have a built-in GPS.

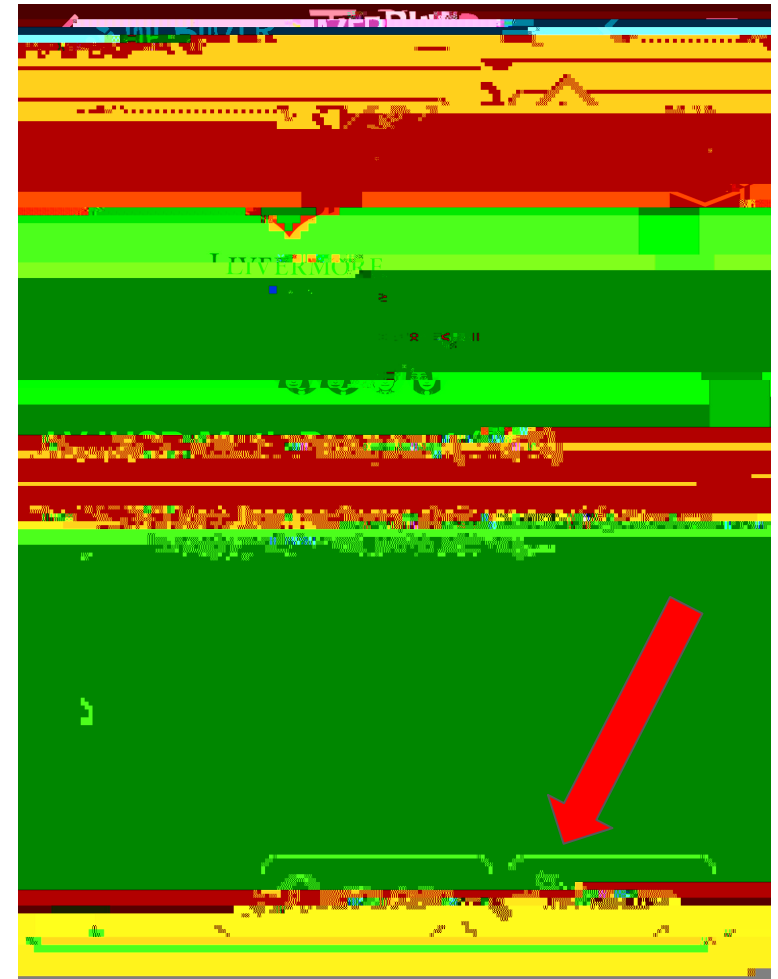

# FAQ

## Playing Multiple Grade Level Games at the same time

If you have children in different grades, you may want to play multiple games at the same time as you drive from location to location. The easiest way to do this would be to play on separate devices, and use a different game code on each device.

However, you can also download multiple games on one device, and toggle between them when you are at each location. After answering one child's question, you can leave that game. Then, from the app's main menu, tap on "Saved Games". Tap on the other child's game and then tap on "Resume" at the bottom of the screen to pick up that game where you left off.
